

TWELVE LOCAL BOYS IN LATE CASUALTIES

CAPT. FRED W. FRITTS' NAME APPEARS.

Killed, Wounded and Died of Disease Still Continue to Have Local Application.

In Wednesday's casualty list appears the name of Capt. Fred W. Fritts, one of Chattanooga's best known young men, who is mentioned as having died of disease. Several weeks ago homefolks were notified by a letter from a nurse who attended Capt. Fritts of his demise. Tender words of sympathy were offered to the bereaved parents. According to the letter, the gallant officer was killed at Brest, where many brave heroes are at rest.

Killed in Action.
Although Private Robert E. Eaves, of East Chattanooga, is listed as having been killed in action, a letter written to his mother, Mrs. Annie H. Eaves, on Nov. 5, stated that he was in a hospital recovering from wounds. Previous to that date she was informed that he had been severely wounded. She learned later that he had also been gassed. A recent letter, bearing the date of Oct. 28, stated that he hoped to be out of the hospital by Nov. 1. Enlisting in Battery B on July 8, 1917, Private Eaves sailed for France on May 22, 1918, and has been on three fronts and in four big drives during his army career "over there."

In Washington Hospital.
Frederick William Howes, of Chattanooga, is officially reported as wounded, with the degree undetermined. He wrote his mother, Mrs. W. C. Farris, some time ago that he was struck by flying shrapnel while going over the top. In a later letter he said his leg had been amputated between the foot and the knee. He is now in a hospital in Washington, where he is recovering from his wounds. He hopes to come home before very long.

Soddy Boy.
Corpl. Harvey H. Martin, of Soddy, is listed as having been slightly wounded.

Sergeant Edward Steele.
Sergeant Edward E. Steele, of the twenty-sixth company, Sixth regiment of marines, who is mentioned as having died of disease, wrote homefolks that he was in a hospital in France suffering from a flesh wound received on Nov. 1. The letter was mailed on Nov. 13. A recent dispatch from the war department to Lt. W. H. Steele, of Soddy, stated that he was severely wounded on Nov. 2. The last letter written by Sgt. Steele explained that he was improving. He is in the marine corps on

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then destroy it entirely. To do this, get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, using it to moisten the scalp and rub it gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and disagreeable scalp will stop instantly, and your hair will be fluffy, lustrous, shiny, silky and soft, and look and feel a hundred times better. (Adv.)

CHILDREN
Should not be "dosed" for colds—apply the "cure" treatment—
MRS. VAPORUB
NEW PRICE—70c. 60c. \$1.20

Catarrhal Deafness May Be Overcome

If you have Catarrhal Deafness, you are even just a little hard of hearing or have head noises, go to your druggist and get 1 ounce of Earmin (double strength), and add to it 1.4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial. (Adv.)

BINGEN ON THE RHINE

What American schoolboy does not know—A soldier of the Legion lay dying in Alsace. There was lack of woman's nursing; there was death of a woman's tears—

"I dreamed I stood with her and saw the yellow sunlight gleam on the vine-clad hills of Bingen—fair Bingen on the river where Bishop Hatto was eaten by rats in 969."

EX-CROWN PRINCE WOULD BE HAPPY TO WORK IN FACTORY AS CITIZEN

Frederick William, However, Still Claims Title. Hunger Caused Fall—America Undermined German Confidence.

Oosterland, Holland, Dec. 4.—(A.P.)—"I have not renounced anything and I have not signed any document," Frederick William Hohenzollern, who still claims the title of crown prince of Germany, thus answered the question of the Associated Press in the course of a lengthy conversation today, which took place in the small cottage of the village pastor on the island of Wieringen, where he is interned.

"However," he continued, "should the German government decide to form a republic similar to the United States or France, I shall be perfectly content to return to Germany as a simple citizen, ready to do anything to assist my country. I should even be happy to work as a laborer in a factory."

Saw War Lost at Marne.
"At present, everything appears chaotic in Germany, but I hope things will right themselves," he said. Asked what, in his opinion, was the turning point of the war, he said: "I thought the Verdun attack in 1914, that we had lost the war, considered our position hopeless after the battle of the Marne, which we had lost. I have lost the war, but I have not lost the battle."

Missing in Action.
Private John E. Upton, of Soddy, is mentioned as missing in action. A Tuesday's casualty list also contained the name of Roy A. Smart, of Rossville, who was reported as having been wounded severely.

RIGHT THINKING

Clarence W. Chadwick Expounds Faith

Under the auspices of Second Church of Christ, Scientist, this city, there was a very large audience in the auditorium last evening at a lecture on Christian Science, entitled "Right Thinking," by Clarence W. Chadwick, member of the board of lecturers of the mother church, the First Church of Christ, Scientist, in Boston.

The speaker, who was introduced by O. P. Darwin, first reader in the local church, spoke in part as follows: "Mrs. Eddy's vision of the Christ not only healed her of the effects of a social and racial accident, but it gave her a purified mental health, where she could spiritually discern the deep thoughts of God, and then lay them out to the world. Her whole earthly life, from childhood, was one continuous search after spiritual things. She looked all the time to follow Christ and behold the results."

Mrs. Eddy's Discovery.
"It was in the year 1820 that Mrs. Eddy made the important discovery that all causation was mind, and every effect a mental phenomenon."

"By mind she meant the carnal or mortal mind which is enemy against God," but the one infinite, supreme, governing intelligence of the universe, eternal and unchangeable.

Health and Disease.
"Christian Scientists are naturally a great deal more interested in the subject of health than in disease. They have found out that the right idea of health, when intelligently presented to humanity, is far more contagious than the thought of disease. They do not believe in falling sick, and then having to become prostrate in the human knowledge of disease before learning how to be well. They have learned that health is the normal condition of man in Christian Science, and that disease is a mistake of the mortal mind, to be corrected by a right understanding of health as an attribute of God."

"Jesus did not advise us to acquire a human knowledge of disease, in order to heal disease; He did not counsel His followers to study medical works in order to cope intelligently with the life of the flesh. He did not say to study what the world says about sin, in order to avoid its experience. What did he say? 'Think ye that I have come to destroy the law and the prophets? I have come to fulfill them.' He said, 'I am the light of the world. He that followeth me shall not walk in darkness, but shall have the light of life.'"

MRS. BOOTH SAILS FOR FRANCE ON WAR WORK

Mrs. Ballington Booth, wife of Gen. Ballington Booth, president of the Voluntary Aid Council, who sailed recently for Europe in the costume of the Y. M. C. A. to spend the winter with the American expeditionary forces, to help cheer the Yankee boys during the coming winter nights. Mrs. Booth is a talented singer and has visited almost every town in this country in the last thirty-two years.

BIG PLANS MADE FOR RED CROSS DRIVE

COMMITTEES NAMED TO CANVASS FOR MEMBERS.

Campaign Opens Dec. 16 and Lasts for Seven Days.

Names of Committees.

Plans for the big Red Cross Christmas roll call membership drive, which is to be held under the direction of F. A. Nelson, chairman for Hamilton county, for several days beginning Dec. 16 and ending Dec. 23, are progressing nicely according to reports from the county headquarters, and it is predicted that the quota, which has been set at 25,000 members, will be raised in much less time than is allowed for the work. For the purpose of forming final plans for the big drive a meeting of the committees has been called by Director Nelson. All committees of the various committees, including those made up of both men and women, will be called upon to meet with their captains or chairmen Thursday night at 7:30 sharp in the auditorium of the chamber of commerce building on Broad street in most important session.

The committees for the canvass have been appointed and are organized into excellent working trim, the territories assigned and all in readiness for the membership campaign. The canvass of the business section under the direction of Chairman D. A. Shumaker will be held for five days beginning Dec. 17, the second day of the drive. Mrs. J. E. Lauderbach, county district chairman, will probably have her committees at work during the entire canvass of the residential section will be conducted by the committees under the direction of Mrs. Theo. King, city chairman.

Two of the men's committees, who will canvass the business section, have been appointed and their territory assigned. The committees for their territory are as follows:

Committee No. 1—Georgia avenue and Walnut street. C. E. Bradish, captain; W. C. Starn, J. B. Green, King, Fritts, E. E. Betts, Stanley Robinson, Dr. J. Myers.

Committee No. 2—Broad street and all territory west of Broad and north of Ninth. R. C. Jones, captain; J. W. Taylor, W. C. Starn, J. B. Green, King, Fritts, E. E. Betts, Stanley Robinson, Dr. J. Myers.

Committee No. 3—Market and Cherry streets from Seventh to Ninth. Eighth street from the river to the city limits. Main street to corporation limits. Alton Park and St. Elmo. E. F. Wheeler, captain; Lewis Dungan, John Lyons, E. M. McCrene, W. J. Taylor, Burton Jones, Mercer Reynolds, W. S. Weatherford, Ned Coolidge, L. C. Smallwood.

Committee No. 4—Market and Cherry streets from Seventh to Ninth. Eighth street from the river to the city limits. Main street to corporation limits. Alton Park and St. Elmo. E. F. Wheeler, captain; Lewis Dungan, John Lyons, E. M. McCrene, W. J. Taylor, Burton Jones, Mercer Reynolds, W. S. Weatherford, Ned Coolidge, L. C. Smallwood.

Committee No. 5—James Building. John Chambliss, captain; A. C. Cogswell, W. C. Starn, J. B. Green, King, Fritts, E. E. Betts, Stanley Robinson, Dr. J. Myers.

Committee No. 6—Market street from Seventh to the river. S. H. Robertson, captain; Adam Haskell, G. G. Fletcher, H. R. Thatcher, Joe W. Williams, Joe W. Williams, John Poindester, J. W. Johnson.

Committee No. 7—Ninth street. Jack O'Leary, captain; Lieutenants to be selected.

Committee No. 8—Cherry street from Seventh to the river. S. H. Robertson, captain; Adam Haskell, G. G. Fletcher, H. R. Thatcher, Joe W. Williams, Joe W. Williams, John Poindester, J. W. Johnson.

Committee No. 9—Cherry street from Seventh to the river. S. H. Robertson, captain; Adam Haskell, G. G. Fletcher, H. R. Thatcher, Joe W. Williams, Joe W. Williams, John Poindester, J. W. Johnson.

STOMACH TROUBLE

"Before I used Chamberlain's Tablets I doctored a great deal for stomach trouble and felt nervous and tired. After using them for a week or two I feel much better and my appetite has improved in every way," writes Mrs. L. A. Drinkard, Jefferson City, Mo. (Adv.)

CHASE AFTER BOYS

Bull Dog and Negro Aroused From Slumbers.
Some exciting times took place in the N. C. & St. L. railroad yards at a late hour last night when a bull dog was aroused from his slumbers by three young white boys who were fleeing from four officers and a number of soldiers. The boys were attempting to remove the tires from an automobile belonging to the Southern Railway company, which was parked in the yards. The dog was awakened by the noise and the boys fled. The dog was captured by a patrolman and the boys were taken to the police station.

Model of League.
Alfred De Tardie, writing in L'Intransigent, says that despite the apparent attitude of the press, the development of a society of powers is not the chief obstacle, although that nation is now at the mercy of the allied envoys.

The proposed league, the French writer says, probably will be modeled after the program laid down by Viscount Grey when he was foreign secretary of England. According to Viscount Grey's plan, the society of powers would have ability to punish miscreant nations through economic sanctions, while the surveillance over war purchases would limit armaments.

EFFECT BRIGADE POST

Much Discussion on Result of Possible Discontinuance of Campaign.

Among the many things being discussed in the city with respect to the possibility of the establishment of a brigade post at Chickamauga park is the question of the discontinuance of the fight against operations of immoral women in Chattanooga and the government's decision as to Port Oglethorpe.

At an time when it seemed that the methods of dealing with immoral women were not strong enough, when Judge McReynolds' handling of the situation had been entirely satisfactory to the authorities, the statement was made by the provost chief that unless the work was pushed more vigorously at Chickamauga would be abandoned. This statement came from authoritative channels. In other words, the government was not particularly concerned with the health of its soldiers, especially in reference to women, and has instituted a fight against venereal disease wherever a large body was stationed.

If the fight is now dropped entirely, which seems a possibility, it is not likely that there would be no chance of getting Port Oglethorpe designated as a permanent brigade post.

The idea of getting such recognition from the government has been a long something of an obsession with Chattanooga, and the agitation on the subject has again been brought up since the signing of the armistice.

U. S. WIFE OF CZAR'S AID FLEES

DISCUSSES WORK FOR MAIMED SOLDIERS

PROF. B. O. DUGGAN TALKS OF REHABILITATION.

Emphasis Laid on Christmas Roll Call of Red Cross by Several Speakers.

Famine may claim more lives in Russia this winter than the war did. This is the message just brought to America by Mrs. Marguerite Derfelden (left) and her daughter, Countess Derfelden is a New York girl who was the wife of Gen. Derfelden, formerly general of the czar's suite.

PEACE PRELIMINARIES TO BE HELD DEC. 16

First Meeting in French Foreign Office.

Discussion May Be Prolonged. Serbia Counts on Help of United States.

(By Newton C. Parker.)
Paris, Dec. 4.—(I. N. S.)—The French foreign office will be the scene of President Wilson's first meeting with the representatives of the allied powers. It is fairly well established now that the first conference inaugurating the peace preliminaries will take place there on Dec. 16. At this meeting the work of the numerous sections of the conference will be apportioned and these various branches of the conferees will begin their session immediately thereafter.

So far as is known today, only the representatives of the big powers, possibly including Germany, will be present at the initial meetings.

Pre-Peace Parleys.
It is considered improbable that there will be any meeting at Versailles until the peace conference proper opens there in January.

The question of outlining new frontiers is not expected to present any serious difficulties. The first to be settled is that of Germany. Then the problem of establishing the new nation of Poland will be taken up. Following that will be a settlement of the territorial limits of the new states to be made out of Austria and Hungary.

Long Discussion.
Premier Pachtich, of Serbia, believes that there are possibilities of a long discussion when it comes to the question of outlining the frontiers of new Serbia, but he is confidently counting upon the support of the United States, France and England to land to accept the Serbian viewpoint.

Despite the fact that a large section of the press is treating the formation of a league of nations in a lukewarm manner, it is erroneous to assume that French sentiment is unanimously opposed to that great international question on the ground of impracticability. It was reliably stated here today.

A number of newspapers have not taken up the matter seriously at all so far.

Model of League.
Alfred De Tardie, writing in L'Intransigent, says that despite the apparent attitude of the press, the development of a society of powers is not the chief obstacle, although that nation is now at the mercy of the allied envoys.

The proposed league, the French writer says, probably will be modeled after the program laid down by Viscount Grey when he was foreign secretary of England. DISCUSSES WORK FOR MAIMED SOLDIERS

PROF. B. O. DUGGAN TALKS OF REHABILITATION.

Emphasis Laid on Christmas Roll Call of Red Cross by Several Speakers.

Prof. B. O. Duggan, head of the rehabilitation section of the federal board for vocational education for the Fifth district, with headquarters in Atlanta, made very interesting talk upon the work of the educational board at the regular monthly meeting of the Chattanooga Manufacturers' association held in the association building last evening. Prof. Duggan said that his work was principally to find the work that maimed soldiers returning to civilian life from the army are best suited to do. A mental examination is given to the maimed soldier in an effort to determine exactly what the maimed soldier is capable of doing. For instance, one who came before the board had lost both hands in battle. He was formerly an expert bookkeeper. The board must find something the maimed soldier can do. A pair of mechanical hands were constructed for the man, which enabled him to take up his work once more. Other cases are not so easy. Sometimes the maimed soldier must be sent to a training school and taught some vocation which he will be able to perform. In short, the work of the federal board is to eliminate the necessity of maimed soldiers sitting on the street corners and selling pencils for a living. The meeting of the superintendents was presided over by the maimed soldier, enthusiastic held by the organization in some time. In addition to the rehabilitation, speeches were made in connection with the Christmas Red Cross call by F. E. Nelson, chairman for Hamilton county; W. N. Volverson, chairman of the local industrial committee, and Rev. T. S. McCallie, head of the local Red Cross chapter. Dr. McCallie made a characteristic address giving something of the history of the Red Cross and outlining the growth of the organization and its work before the entrance of the United States in the great world war. From a superintendent of the organization, Dr. McCallie, assistant general manager of the Chattanooga foundry, made a very interesting talk upon malleable castings.

AGAIN PLAY GOLF

Riverview Links Begin to Assume Normal Appearance.

The links of the Chattanooga Golf and Country club are beginning to take on a normal peace-time appearance. After more than five months of protracted inactivity they are becoming alive. About one-third of the members are absent with the colors, and of those remaining with the club but few of them have played golf regularly during a period when there were so many patriotic calls upon their time.

The Riverview course shows the result of partial neglect. Only a few of the greens are in good shape, while the rest are in various stages of disrepair. The force in charge of the links has suffered considerable reduction and has not been able to handle the manifold tasks presenting themselves.

As it is no longer termed unpatriotic to take a few afternoons off each week to try one's hand at swinging with the driver, digging with the niblick and shoving with the putter, the local golfers are beginning to appear again on the links. A goodly number have been out every afternoon for the past few weeks and by the aggregation of Saturday afternoon one would expect that the good old days are fast returning.

Last summer about July, all activities of the club, with the exception of golf itself, were suspended. The services of a secretary were dispensed with and also the culinary being of a caddy who wish to satisfy the inner man without breaking the day in half by going into town to get a sandwich. All social events were discontinued early in the summer.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Sals if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid which excites the kidneys, they become overworked from the strain of getting rid of it. To filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, indigestion, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, or irregular in passage, attend by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for the next few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. (Adv.)

READY TO BE HANGED

Hammering Ready to Be Punished for Washington Dec. 4.—If anyone can prove that I aided German propaganda I want to be punished. If I did any wrong I want to be the first to be hanged.

This statement was made today by Louis N. Hammett, president of the American Association of Foreign Language Newspapers, before the senate subcommittee investigating the activities of the organized brewers.

"This committee will not do its duty unless it pushes the case punishment," he added.

Mr. E. Lowry Humes, attorney for the committee, immediately launched upon an attempt to prove that Hammett was carrying out the plan of Dr. Edward A. Rumely, indicted editor of the New York Evening Mail, was used for propaganda purposes.

TO FORM NEW CABINET

Madrid, Dec. 4.—Count Romanones, foreign minister in the Spanish cabinet, the resignation of which has been announced, has been entrusted with the task of forming a new ministry. He has announced that he will consult with the leaders, beginning with Antonio Maura, former premier and minister of justice in order to insure some prospect of stability to the new cabinet.

Model of League.
